The leaders of this interesting party of American working people, was asked in New York, what he had learned while on his trip abroad, and speaking with intel ligence and understanding, he said "Almost every trade was represented in our party, and they examined carefully the products and machinery of the old country. It was observed that the machinery was cumbersome, lacking the completeness that is seen in our country. It was found that the wages are on an average 33 per cent lower than in America." Among the fifty working representatives was an engineer from Illinois, and on his return he said that the engit eers of Europe were not getting more than fifty per cent of the wages paid to engineers in the United States.

The readers of the Gazette will probably remember that in the summer of 1888 a large delegation of mechanic and manufacturers visited Europe for various reasons, some for pleasure, others on business, and still others to investi-These visits were not intended to have any influence on the election, for the party was made up of both republicans and democrats. They did not go in a crowd, neither were they acquainted with each other, as a rule. On one of the steamers which brought many Americans from Europe were a large number of these mechanics and manufacturers, and on investigation it was found that in all the vessel there was not one that refused to endorse the republican system of protection. Seeing in Europe had convinced them that the only salvation for working people was home protection.

DES MOINES, Ia., Sept. 16.—The biennial report of the warden of the Fort Madison penitentiary was filed with the governor to-day. It makes a surprising showing of the decrease in prison population in this state. There is some contract labor carried on at Fort Madison to keep the prisoners busy, but it was found last year that the number of convicts was falling off so fast that there were not men enough to keep the contracts going, so thirty-two counties from northwestern Iowa were added to the district tributary to Fort Madison, giving it seventy-six out of the ninety-nine counties in the state, and yet with this large district to draw from there are now but 380 prisoners in the penitentiary at Fort Madison.

Besides this part of my business I hope to teach, doctor and nurse the little This dispatch appeared in several papers in Illinois and Wisconsin, and is quite significant. It is claimed by the friends of temperance that the decrease in the number of convicts in the Fort Madison penitantiary is due to fact that crime resulting from drunkenness is rapidly decreasing in Iowa. There is much reason for this argument. There has been a surprising decrease in drunkenness in all the principal cities of the state dursaloons in the interior of the state, and places where liquor is sold in the river constant. towns and cities ere lergely shorn of their orime -producing power. The dread of the arrival of this St. Louis, Mo., Sept. 18.—A fatal prize fight occurred here last night. My sister is a buga-Thomas Jackson, and the latter, who was an amateur, received injuries which caused fee in England for visiting a house or disciplining the children is 2 shillings. This

his death th's morning.

Those who witnessed the fight say that it was one of the most brutal and gory affairs that ever occurred in Missouri. Blood flowed freely after the third round. and, although Jackson was a whipped man in the fourth round, he persisted in standing up before his opponent.

He was knocked down repeatedly by

hern. Both men fell under the ropes several times. The flooring of the stage was covered with blood, and was so slippery that the men could not stand up. The spectators who stood near the ropes were bespattered with blood. Every time Ahern would hit Jackson in the face after the sixth round the red fluid would spatter in all directions.

No arrsets have been made, but it is said that warrants are out for all who saw the disgusting sight.

When the time keepers called time for the twelfth round Jackson was put on his feet by his seconds and started forward toward the center of the ring. He had hardly taken a step when he fell back into the arms of his seconds unconscious, and the desperate and sanguinary contest was at an end.

Jackson was conveyed to an upper room in the saloon, where he died in awful agony. His mother, Mrs. George M. Jackson, wife of the well-known Greenbacker, was at his bedside when he died. The young man's body was taken to the norgue. Its appearance is most horrible. The lips hang in shreds, as though cut by the man's teeth at every blow he received and form a bloody fringe through which the reddened teeth show ghastly. His face is one livid mass of battered human flesh, black and blue and terribly swollen.

Detectives were at once detailed to arrest principals, seconds, etc., and specta-tors. Ed Ahern, the surviving principal, was found and lodged in jail. He seems to be proud of the game fight he made, but asserts that Jackson must have had heart di ease, as be did not hit him hard enough to kill him.

of a Dam at Hibernia, Pa. WESTCHESTER, Pa., Sept. 18.—The breast of the large dam belonging to the Kennebec Ice company of Wilmington, Del., located at Hibernia, above Coatesville, burst this morning, and a tremendous amount of water rushed down the Brandywine, overflowing the banks and sweeping everything before it. The large, heavy bridge which crosses the Brandy wine just below the dam was swept away. and several frame buildings were carried on the surface of the flood down to Coatesville. Several of the streets of Coatesville were overflowed, many streets within two squares of the Brandywine being four feet deep in water.

The people living along the stream were warned by the sound of the rushing waters and ran to the high hills which line the stream at this point. So far as heard from no lives have been lost, though the damage done is considerable. The break was caused by last night's heavy fall of

VICTORY FOR DWYER BROTHERS. Their Horse Kingston Wins the Oriental Handicap at Gravesend.

GRAVESEND, L. I., Sept. 18.—The first day of the fall meeting of the Brooklyn Jockey club dawned with a cloudy sky. The meeting just beginning bids fair to eclipse all other meetings of the year. The Dwyer brothers have gone away down In their money bags and have offered purses worth \$92,000. The main interest of the day was in the fourth race, the Oriental handicap, 14 miles. At the third attempt off the horses went, with Cracksman, Oriflamme, Kingston, and Badge in front. Badge was leading a length at the half-mile post, with Los Angeles and Cracksman lapped a length and a half before Cortes. Raceland was fifth, and that was as near the front as he could get posed from the presi- throughout the race. At the end of threequarters Cracksman had worked himsel to the front. At the mile post Badge and Los Angeles were on even terms. Kingston and Courtney were close up. From the head of the stretch to the wire it was a pretty race. Exile, Kingston, Badge, and Los Angeles ran almost lapped, all under a drive. Then Murphy slowly but surely forged Kingston's nose in front and passed under the wire in that position. The official finish was: Kingston first by a head, Los Angeles second, a head before Badge, who was a head in front of Cortes. Time 2:121. THAT BEEF INSPECTION LAW. A Minnesota Judge Called Upon to De-

cide as to Its Validity. St. PAUL, Minn., Sept. 18 .- A very interesting case was tried before Judge Nelson of the United States Circuit court this morning which will be of the utmost importance to meat men, as it will practically decide the obnoxious meat inspection law. Yesterday afternoon at White Bear Lake Deputy Sheriff Clewitt arrested a butcher named Henry E. Barber on a charge of violating the inspection law by killing and selling beef without first having it inspected. He was brought before Justice Clark of White Bear and at once admitted to bail. No sooner had this transpired before a number of Barber's friends appeared before Judge Nelson and asked for a writ of habeas corpus issued against Sheriff Bean commanding him to have Barber brought at once into the United States Circuit court for trial.

It is understood that Barber is a representative of Armour and that the whole matter of his arrest and trial to-day had been fixed up so as to give a test to the law's validity. The decision will be announced Monday.

THIRD You should read the CHICAGO DAILY NEWS because it's an inde-DAILY News because it's an independent newspaper. There are two sidesto every political question, and THE DAILY News gives them both with equal fairness. A party organ magnifies one side and dwarfs the other. No sensible man wants to be trifled with in this fashion. The time has gone by when American citizens expect to inherit their political opinions. They want to make their own—and to do this they want a paper to tell them the truth, regardless of their own personal preferences. If you are an honest man, independent and self-reliant in thought, read an honest and independent newspaper—read The CHICAGO DAILY NEWS. Remember—Its circulation is 220,000 a day—over a million a week—and it costs by mail 25 cts. a month, four months \$1.00,—one cent a day.

TO MONTANA, OREGON AND WASHINGTON.

If you are going west bear in mind the follow'ng facts: The Northern Pacific Railroad owns and operates 987 miles, or 57 per cent. of the entire railroad mileage of Montana; spans the territory with its main lines from east to west: is the short line to Helena; the only Pullman and dining car line to Butte, and is the only line that reaches Miles City. Billings, Bozeman, Missoula, the Yellowstone National Park and, in fact, nine-tenths of the cities and points of interest in the territory.

in fact, nine-tenths of the cities and points of interest in the territory.

The Northern Pacific owns and operates 621 miles or 56 per cent of the railroad mileage of Washington, its main line extending from the Idaho line via Spokane Falls, Cheney, Sprague, Yakıma and Ellensburg, through the center of the territory to Tacoma and Seattle, and from Tacom to Portland. No other transcontinental through rail line reaches any portion of Washington Territory. Ten days stop over privileges are given on Northern Pacific second class tickets at Spokane Falls and all points west, thus affording intending settlers an excellent opportunity to see the entire territory without incurring the expense of paping local fares from point to point.

portunity to see the entire territory without incurring the expense of paping local fares from point to point.

The Northern Pacifiic is the shortest route from St. Paul to Tacoma by 207 miles: to Seattle by 177 miles, and to Portland by 324 miles—time correspondingly shorter, varying from one to two days, according to destination. No other line from St. Paul or Minneapolis runs through passenger cars of any kind into Idaho, Oregon or Washington.

In addition to being the only rail lin to Spokane Falls, Tacoma and Seattle, the orthern Pacific reaches all the principal points in Northern Minnesots and Dakots, Montana, Idaho, Oregon and Washington. Bear in mind that the Northern Pacific and Shasta line is the secnic route to all points in California.

It keeps the hair soft and silken, preserves its color, prevents it from falling, and, if the hair has become weak or thin, promotes a new growth. I was induced to try Ayer's Hair Vigor, and in a few weeks the disease in my scalp disappeared and my hair resumed its original color."—(Rev.) S. S. Sims, Pastor U. B. Church, St. Bernice, Ind. "A few years ago I suffered the entire loss of my hair from the effects of tetter. I hoped that after a time nature would repair the loss, but I waited in vain. Many remedies were suggested, none, however, with such proof of merit as Ayer's Hair Vigor, and I began to use it. The result was all I could have desired. A growth of hair soon came out all over my head, and grew to be as soft and heavy as I ever had, and of a natural color, and firmly set."-J. H. Pratt, Spofford, Texas.

Cottage by the Sea None Too Good for the Successful Histrionic Representative -- Gossip About Players-- Vagrants and Vagabonds Till Their Season Opens.

HE LIFE of an actor of the stage is not greatly different from that of other people. He must eat and sleep and rest and amuse himself as best he may. A New York correspondent who has been traveling this

ummer writes to his paper about the theatrical people he has met at their summer places of recreation, and in the course of his letter he says: Although there are blue laws still existing in some of the States of the Union

which characterize actors as "vagrants and vagabonds," yet the wanderings of these "vagrants and vagabonds" are sources of interest which find voice in the columns of every live newspaper. In Connecticut an actor still has no standing in the eyes of the law. Perhaps that is the reason that some of the competing basis with the same interests in | Connecticut towns are used as "dogs" to

try a play on. You seldom find a longrunning attraction in the Nutmeg State. But while some people may pay the piper, others dance to the tune; and while actors are "vagrants and vagabonds" in Connecticut they are lords of the land elsewhere. The doors of millionaires are open to them, and there is not a hotel clerk in the land whose diamond headlight does not shine brighter when he assigns a star actor to the best room in the house. But the modern actor is hardly Burbage and the other merry fellows of the Globe VETERANS from Kansas, Missouri, Iowa theater, who used to drink their possets at and Nebraska attended the interstate re- the Swan inn when good Queen Bess ruled union of soldiers and sailors at Sabatha, the roost. And why not, when he has a to continue the eight-hour shifts, the way the men had been working through the loafing and the inviting.

STUART ROBSON.

Here is Edwin Booth, for instance. He has made money enough to give a club house to the actors-the Players' club-Lookout, Long Beach, L. I. All were where he and his manager, Lawrence Barthe moons of Saturn, the smaller satellites glimmer around them. Well, Barrett is mate of Dr. Detchon's private inabriate taking his summer outing in Europe, nursing a boil on the back of his neck, and the little Cobassett party between the two tragedians is off. Just at present Edwin Booth is at Newport, where he will remain until the end of the month. Edwin Booth, off the stage, is a very companionable fellow to those he likes. He has a horror of bores and interviewers, but when he likes man he gives out his whole soul to him, without a particle of affectation. At Newport he likes to get away in quiet nooks by himself, and without the slightest idea of communing he communes a good deal with the surf and mingles with society in a pleasant and informal way.

Another rich actor, probably the richest in the profession at the present time, is Joseph Jefferson. He is so rich that he acts Chicago.

Another among the rich ones is Kate Claxton. She has a country home all the year round at Larchmont, Westchester county, N. Y. The place was originally almost an actors' colony, and its first impetus was received from the building of cottages by such men as James Lewis, Lewis James, Claude Burroughs (the bright young actor who lost his life in the

She has a splendid country seat there, and the people in the neighborhood fairly idolize always buoyant and winsome Fanny. There is a very merry coterie of actors at the Highlands of the Navesink, just opposite Sandy Hook. Among it you will find Joseph Wheelock (who, by the way, is the best all round actor in the country). John Webster, Nellie McHenry, his wife and, further back, Don Diego de Vivo, who has managed opera singers from Parepa Rosa and Ilma di Murska down to Emma Abbott. Frank Maeder of Salsbury's Troubadours, used to be one of this colony, but this year he has a cottage at Long Branch, where he has won distinction as a remarkable concoctor of gin fizzes.

Agnes Booth, as usual, is taking her vacation at her hotel at Manchester-by the Sea. She and her husband, John Schoeffel, run the hotel and coin a mint of money out of it. In former years sylvan dramatic entertainments have been given here, such as "As You Like It" and "A Midsummer Night's Dream," but nothing of the sort has yet been arranged for the present season, and it is now so far advanced that the prospects for such per formance are, at least, vague. between the grease paint, the rouge and

Belief in dreams has received new adherents in Lincoln county, Maine, owing to some strange circumstances attending the finding of the body of Elbridge Call. The account is given in the Bath Times, as follows: For three or four days three or four hundred people had been diligently scour-ing the woods and examining the ponds in the vicinity, when a brother-in-law of the missing man in whose care Call's motherless child had been left, dreamed that he had found the body of Call drowned under a bridge. After telling his wife and others of his dream he started to follow down a creek not far from his farm, over which his dream had located a bridge. Upon arriving in Dresden he sought his intimate friend and brother-in-law, Mr. Bowman Myers, and they both went to the little stream from a directly contrary direction from Call's home, and under the old coun-

try road stone bridge, so old that old people say it was built before their time, they found the body. If you could see your own scalp through an ordinary magnifying glass, you would be amezed at the amount of dust, dandruff, and dead skin thereon accomulated. The best and most popular preparation for cleansing the stalp is Ayer's Hair Vigor.

So those who read, reflect and heed the lessons of recorded experience, the advisability of using Hostetter's Stomach Bitters as a diure.ic, need scarcely more than a suggestion. No fact is more generally admitted by the medical profession and the public than the efficacy for the pre-vention of serious renal diseases. A Woman Hater's End. The suicide of a Baltimore man the other day is fully explained by the statement that he was a woman-hater. For years has his aversion to woman been so great that he would step from the sidewalk to avoid passing one too closely, and he would not sit at the same table with one. That the existence of this man must have been wretched beyond expression no one can doubt, and perhaps the strangest part of his horrible romance is that ne did not end his wretched life long ago. Disappointment in love in his youth is said to have been the cause of his hatred for women. Like many another fool, he was ready to judge all women by the one who had played him false. By doing so he committed a wrong to womankind for which no good woman can forgive him, and he inflicted a fitting punishment on himself by spending the rest of his life of nearly half a century in misery and mental torture. The man who hates womankind need never hope for happiness this side of the grave, and perhaps not beyond it.

"It is not necessary to go to Jamaica or Hayti to find believers in voodoo." said a Pittsburg physician the other day. "When I was a younger man I had considerable practice among colored people in Philadelphia, and I constantly had trouble with my patients. They would declare they were bewitched and refused to take the medicine prescribed for them, but go off to some conjurer, who, for a consideration, would pretend to take the spell away. And this would happen to respectable people who sent their children to school, and were themselves more than ordinarily intelligent.

BALVATION ARMY CASE. The second case in the matter of the City of Janesville vs. the Salvation Army came before the municipal court to-day.

This morning was the time set for hearing the case of the City of Janesville vs. Frank Carson, one of the members of the Salvation Army charged with violation of the ordinance upon the 17th of August last, by ishouting, singing, beating a drum and otherwise making an unnecoccurred on the 13th instant. The gift is essary noise contrary to the law and good order of the city, and thereby endangering the salety of its citizens. The city is represented by its prosecuting attorney, Mr. Doe, while the defendant is ably conducted by Mr. Wheeler.

The defense called for a jury. A venire was issued, and at 2 p. m. the following persons responded to their names: A F. Lee, Charles Lee, Sherman Phelps, Herman Knoff, W. N. Slawson, Herman Sandow. The case is on trial at the time of going press.

THE BACINE METHODISTS. THE CITY HOSPITAL.

WORK TO BE ACCOMPLISHED IN THE NEAR

But little has been said of late con-

is being so quietly performed that its existence is scarcely recognized except by the inmates, and the few faithful workers. During the summer months, when so many people were away on vacations it was a question of some doubt with the board of directors as to whether it was possible to keep the doors of the institution open. Realizing the necessities of the case, and keenly appreciating the good work to be accomplished by the hospital, Mrs. E. D. Tallman, assisted by Mrs. A. P. Lovejov, started out a few days since to raise \$250 for current expenses. Mr. Wm. H. Tallman having made a proposition to be one of ten to give \$25 each, they succeeded in raising the amount, and the following is the list Valentine Bros., Wm. H. Tallman, Mrs Wm. H. The membership should be largely increased, so that when a board of directors is elected they will be endorsed by a strong constituency equally interested in the success of the institution.

Let us take held of the enterprise with a will, and place the city hospital on a strong financial basis that will be creditable to the city. There is nothing that begets interest in an institution like money investment, and however small the mite, every citizen of the Bower City should contribute something. The Ga zette bespeaks for the committee a very cordial reception, believing that the endowment of a hospital fund merits hearty recognition.

proach of the Methodist conference to be held at Beaver Dam, interest in the controversy between Presiding Elder Hilsey and some of the ministers in his dis trict, is again revived. Dr. John, when approached this morning in regard to what disposition would be made of the matter, said that it was beyond his knowl edge, and further refused to say anything one way or another. However, the members of the Meihodist church here, are not disposed to be very friendly towards Presiding Eld Halsey for varous reasons. When the last conference was held here it was generally understood that Rev. Henry Faville would not be returned to Racine, not owing, howeverto any animosity toward him, but because it was thought that a change was desiried. Rev. Mr. Faville had many friends, not only among members of his own church but among all denominations. and the shabby treatment which he received was due to Presiding Elder Halsey and was not calculated to win friends for the latter. The controversies have now become a subject of newspaper gossip, and the good members of the M. E. church feel that the church is reaping no good results from such liberal advertising of what is merely a church dispute. It is understood that the officials of the First M. E. church of Racine have passed a resolution, in effect that, whereas public discussion of church difficulties does not tend to promote the church's welfare and good name and desiring to throw sside all further talk, they believe that the best interests of the church will be subserved by appointing as presiding elder of this district some minister who has not been implicated in the contro-

There is no question in the minds of great many Methodist people throughout the Wisconsin conference that the interests of Methodism demand the curtailing of Presiding Elder Halsey's power. Whatever circumstances may have contributed to his unpopularity when a presiding elder reaches a point where some of his best churches refuse to recognize him in the sacred work of his high office, it would seem in order to call a halt and transfer him to a more congenial atmosphere. This can be done without injustice to Mr. Helsey and with benefit to the denomination he represents. PALL OF A METROB.

The Lake Geneva News: During the storm of a week ago lest Tuesday morning, a meteor ærolite or what do you call it, fell on the premises of Mr. Thomas McDonald, on the shore of Duck lake. Mr. McDonald was but a few rods from the fire ball when it struck in a clover field near his barns and stock. As struck, or just before reach-

What is said to be a valuable find silver ore has been discovered in the mountains near Connellsville, Pa., Joseph Avrington, who lives in a shanty near Bluestone quarry. Avrington make his living mostly by hunting, and found the ore last May while out with his gun. He sold his secret to a man named Baker, who gave his note for \$500 in return. He afterward told Avrington the ore was worthless, but the latter has interested a company of Connellsville capitalists in the matter. They will develop the find if it should prove of any value. A great deal of excitement exists, and prospectors are swarming the mountains in the hope finding other deposits.

Electricity in the United States. According to reliable reports, there are classes of the Janesville high school:at present 3,351 isolated electric lighting plants and central stations in the United States alone, operating 192,50% arc and 1,925,000 incandescent lights each night. There are steam engines of 459, 495 horse power used for electric lighting. The capital invested in the American electric lighting companies during the past half year has been increased to the extent of \$42,210,000. In April last there were in the United States 58 electric railways, with 369 miles of track, operating 440 motor cars, and utilizing about 8,000 horse power for stationary engines. Forty-nine new roads were in February last being built, having a total of 189 miles of track and to use 244 motor cars. There are also several motor factories, some of them em ploying as many as 1,200 men. A Large Block of Coal. An exhibit that presents a certain curious interest at the Paris exposition is that
